### ABOUT

I'm an enthusiastic software developer and a technical writer, with a keen focus on making the web a better environment. I love to motivate myself to be consistent with learning and working smart. I'm proficient in converting high quality designs to a functional and responsive front end code. In a dynamic environment, I work well with using effective communication skills to interact with other co-workers. At my leisure, I enjoy traveling and watching football.

### EDUCATION

#### Obafemi Awolowo University, Ile-ife — BSc

2018 -2023

Course: computer science

### PROJECTS

#### Triangu — A Tech blog
